TRUCK PACK CASES TRUCK PACK

Odyssey Professional Truck Pack are engineered for efficient truck packing and touring-grade durability. Designed to fit both 96" and 102" truck boxes, these cases pack easily from two across up to four across, with standardized heights for effortless stacking and load-ins.

Constructed from premium multi-layer birch plywood with a durable Hexagon Black laminated exterior, OPT Series trunks are built to withstand the demands of the road. Industrial-strength Penn Elcom® hardware and heavy-duty auto-position return casters ensure reliability and ease of use. Integrated caster stacking cups allow all four casters to drop into place, eliminating the need for manual alignment.

The interior features pre-slotted divider grooves for customizable storage configurations. Models with a "T" designation include removable utility trays, ideal for organizing tools, accessories, and loose components.

Features:

- Designed for 96" and 102" truck pack compatibility
- Packs 2-4 across with unified case heights
- Premium multi-layer plywood construction
- Hexagon Black laminated exterior
- Industrial-strength Penn Elcom® hardware
- Heavy-duty auto-position return casters
- Integrated caster stacking cups for easy stacking.
- Pre-slotted interior divider grooves for flexible configuration.
- "T" models include removable utility trays
- Designed by professionals. Trusted by touring experts.

CADILLAC CASES CADILLAC CASES CADILLAC CASES

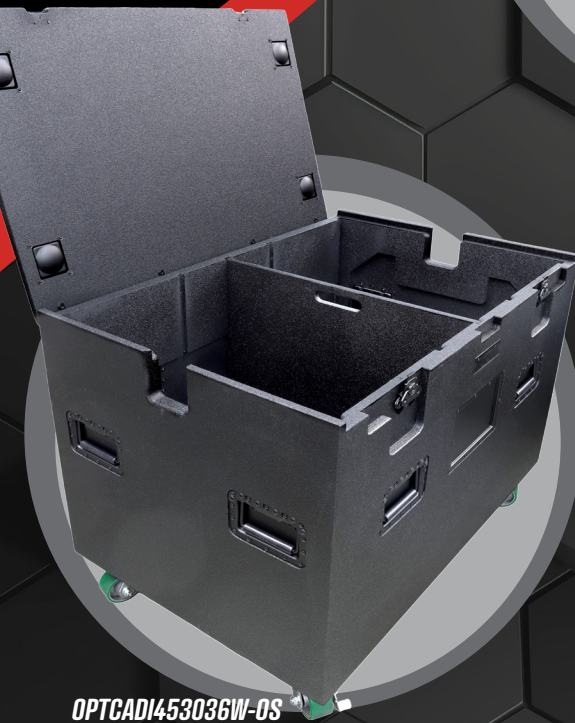

Odyssey Professional Cadillac Case Series

Our Cadillac Cases are built from industrial-grade, multi-layered birch plywood, precision CNC-routed and assembled using premium Penn Elcom hardware.

Each case is finished with a durable Tuff Kote exterior coating, providing long-term protection against water, abrasion, and harsh handling. Heavy-duty 4" x 2" casters ensure smooth, reliable mobility in demanding environments.

Crafted by Odyssey experienced case professionals, the Cadillac Case Series is a smart investment in protection, strength, and longevity—engineered to safeguard your equipment wherever the road takes you.

PRO MODULAR ODYSSEY DJ TRUSS TABLE

The Odyssey Pro Modular DJ Truss Table takes your DJ performance to the next level with a solid, sturdy build you can rely on. Incorporating our legendary Duro Deck® staging design, this table is engineered for strength, stability, and versatility.

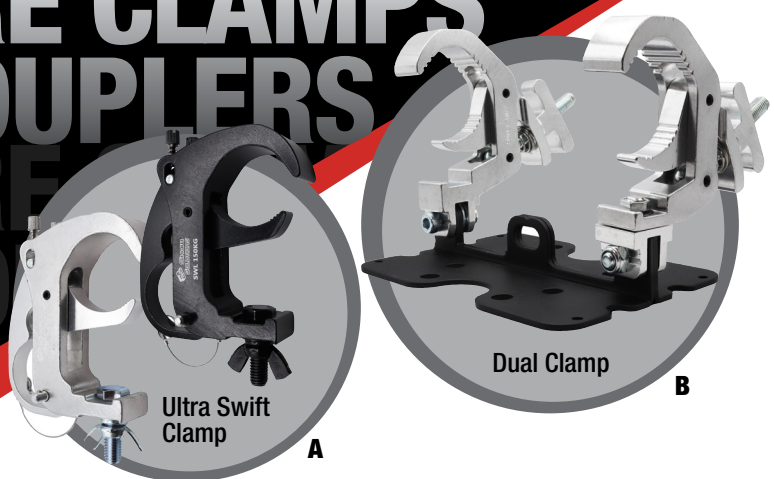

Its modular construction allows you to easily connect one DJ table to another, creating an impressive main-stage presentation. With a 4-way modular design, tables can be connected on all four sides, enabling flexible configurations—including L-shaped setups—that keep all your gear within easy reach.

Ideal for live performances, studios, or club installations, the Odyssey Modular DJ Truss Table delivers professional-grade functionality with a clean, modern look.

DJBOOTHMWBLK

DJBOOTHMWWHT

The Odyssey Metal Werks™ DJ Booth System is an evolution of Odyssey's popular Carpeted and Flight Folding DJ Stand series, carrying forward the brand's signature fast fold-out and fold-in design. Built for mobile DJs, it delivers quick setup and teardown without sacrificing stability or style.

Featuring an elegant, compact, and sturdy platform, the Metal Werks DJ Booth is ideal for weddings, corporate events, backyard parties, and home studio use. It offers ample workspace for today's most popular DJ gear, including controllers, turntables, mixers, CDJs, and laptops.

Lightweight Lycra front and side panels allow for creative lighting effects while minimizing overall weight for easier transport.

The system includes a folding DJ booth, one laptop stand, and a padded carrying bag. Optional accessories—sold separately—include a TV mount and a second laptop stand. The booth is available in black or white finishes. Stylish, portable, and highly functional, the Odyssey Metal Werks™ DJ Booth System is a versatile solution for professional DJs and modern home studios alike.

SLAM RACKS SLAM RACKS SLAM RACKS

OPSR16UW

Odyssey Professional Slam Racks
Slam. Secure. Done.

No more lost rack covers, storage hassles, or struggling with latches. Odyssey Professional Slam RAX™ (Racks) feature heavy-duty slam latches that lock doors securely for transit, then slide neatly into the rack during performance—fast, clean, and convenient.

The internal shock-mount frame protects sensitive electronics from vibration, while the open-frame design improves airflow compared to traditional rack cases. Built for touring pros, Slam Racks speed up setup and teardown while keeping your gear safe.

Key Features

- Available in Single and Dual Rack configurations
- Slide-in front and rear doors with slam latches
- Internal shock-mount system for superior protection
- Improved airflow open-frame rack design
- Front and rear rack rails
- Room to leave internal cables connected
- Heavy-duty casters (two with brakes)
- Stackable design with caster dishes
- Industrial hexagonal black board construction for durability

GEAR SHIELDS

Odyssey Gear Shields is made from durable polycarbonate—the same material used in bulletproof glass.

Each Gear Shield is custom-molded to perfectly fit your DJ mixers, controllers, CDJs, and more, providing reliable protection for faders, knobs, and screens. Designed to guard your gear against dust, accidental drink spills, and everyday wear, the Odyssey Gear Shields keeps your equipment safe without hiding it. The crystal-clear, see-through design lets you show off your setup to guests and fellow DJs while maintaining full visibility of your gear.

MOTORIZED 100", 85" & 75" FLAT SCREEN CASES

Odyssey Professional Indoor Electric Motorized TV Lift Cases are heavy-duty transport and display solutions featuring a built-in electric lift mechanism for fast, effortless setup. Simply roll the case to the desired location, remove the top covers, lock the casters, power on, and elevate the TV safely to the ideal viewing height.

Designed for events, trade shows, mobile presentations, and professional installations, these lift cases deliver both convenience and protection. The integrated control unit and wireless remote provide three programmable memory positions, allowing the TV to be raised or lowered at the push of a button.

Key Features:

- Built-in electric motorized lift system
- Multi programmable height memory presets
- Control via onboard control panel or wireless remote
- Road-worthy 3/8" multi-layer plywood construction
- Durable black hex laminate exterior for maximum protection
- Four heavy-duty, lockable casters for smooth mobility and secure placement

Cable panels can mount on
left and/or right side

Odyssey Performance Ready™ Cases feature pre-wired balanced XLR patch panels and integrated PowerCON® power for fast, clean setups.

Essential gear stays permanently wired inside, with dedicated XLR I/O and pre-punched mounting holes for external wireless antennas.

Simply connect external power and master outputs and you're ready to perform in seconds. No messy cables, no forgotten gear—just a true plug-and-perform solution.

Product Highlights

- Pre-wired balanced XLR patch panel mounted on the side of the case
- Dedicated XLR input and output jacks for fast, clean connections
- Integrated PowerCON® inlet powers pre-wired power conditioner or power center
- Essential gear stays permanently connected inside the case
- Pre-punched mounting holes for external wireless microphone antennas
- True plug-and-perform design—ready in seconds
- Clean, professional appearance with no messy cables

FLIP N MIX CASES

Odyssey Professional Flip N Mix Hydraulic Lift-Assist Console Cases are both highly functional and exceptionally rugged. Designed for demanding production environments, these cases feature built-in, weight-balanced hydraulic lift mechanisms that allow heavy mixing consoles to be raised smoothly from a stowed transport position to a fully Mix ready position with ease. Inspired by the long-standing innovation of automotive trunk lift struts, these hydraulic supports—also known as lift supports or trunk shocks—provide controlled, stable movement and secure positioning of the console. The lift-assist system prevents sudden drops or closures, ensuring safe operation while reducing physical strain on the user.

This design enhances overall convenience by enabling:

- Smooth, controlled lifting and lowering
- Easy access through narrow doors and tight load-in paths
- Efficient packing in compact truck and trailer spaces

For optimal performance and safety, regular inspection is recommended to maintain proper lift balance and long-term reliability.

Odyssey Flip N Mix hydraulic lift-assist cases deliver a smart combination of durability, safety, and ergonomic efficiency, making them an ideal solution for touring professionals, rental houses, and live production crews.

For Consoles such as: ALLEN & HEATH SQ7, YAMAHA DM7, DIGICO QUANTUM 225, MA LIGHTING-GRANDMA3 etc...

FlyPack

FLYPACK3

FLYPACK1

FLYPACK2

The Odyssey FLYPACK is a compact and portable video production system available in single, dual, or triple bay configurations. It is designed for live events, sports broadcasts, and television productions at remote or temporary locations, away from traditional studios.

Built for fast deployment and operation, the FLYPACK allows you to transport a complete, complex video production setup in a mobile, road-case design, making it easy to produce high-quality video content anywhere.

FlyRack

Odyssey Fly Rack System

The Odyssey Fly Rack System is a rugged transport case designed to keep your rack-mounted audio, video, and network equipment safe and secure during travel. Built for touring professionals, event production, and mobile setups, this case delivers unmatched protection and portability.

Built for Maximum Protection

- Waterproof and dust-tight injection-molded case safeguards sensitive electronics from harsh environments
- Shock-absorbing foam cushions your gear from impacts and vibrations
- Weather-sealed gaskets ensure your equipment stays protected from moisture and dust

Premium Internal Rack Frame

- Constructed from multi-layer plywood, balancing lightweight design with long-term durability
- Rack depth options to fit your gear perfectly:
 - 7.6" frame depth: 1U, 2U, 3U, 4U
 - 11.6" frame depth: 4U, 6U

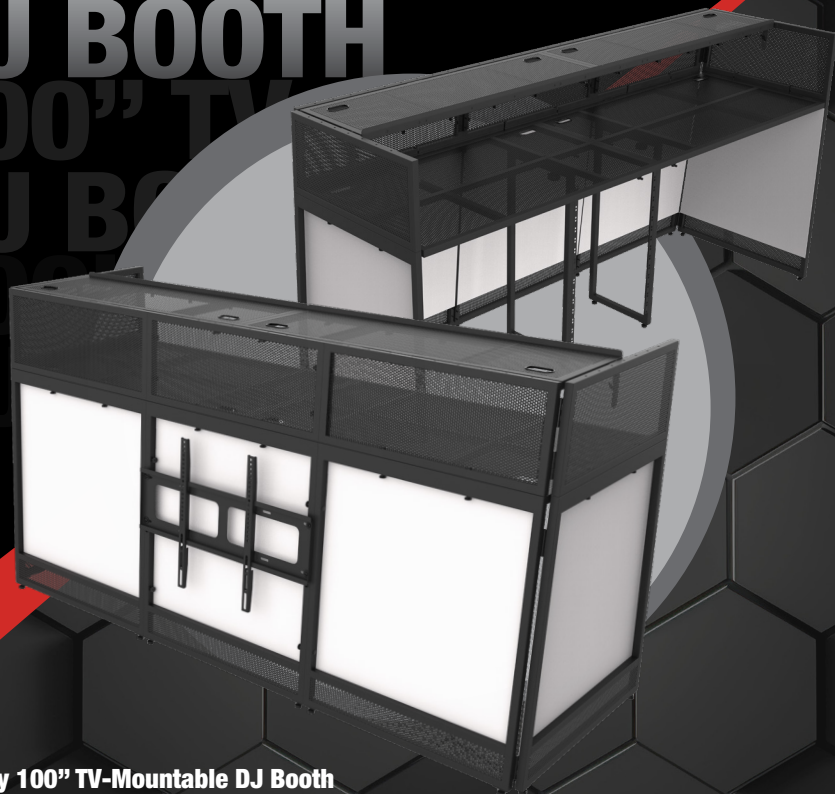

Easy Transport

- Select models feature built-in wheels and a pull-out handle for effortless airport or on-the-road mobility
- Ideal for touring professionals, live sound engineers, and mobile AV setups

Why Choose the Odyssey Fly Rack System?

Whether you're traveling to festivals, clubs, corporate events, or on the road for tour production, the Odyssey Fly Rack System keeps your gear organized, secure, and ready for performance—everywhere you go.

100" TV DJ BOOTH

Odyssey 100" TV-Mountable DJ Booth

Big presence. Clean setup. Maximum impact!

Take command of the stage with the **Odyssey 100" TV mountable and with 90" wide working surface professional DJ booth**, designed for DJs who demand **performance, visuals, and organization**. Perfect for mobile DJs, club gigs, festivals, and DJ battles, this all-in-one booth lets you **look as professional as you sound**.

Key Features

- **Spacious dual-tier design** for controllers, mixers, turntables, laptops, and accessories
- **Removable mesh barrier** for crowd control and equipment protection
- **Built-in cable management** keeps your setup neat and professional
- **16 space racking system**
- **TV/monitor mount** supports screens up to 100" for visuals, branding, or live visualizers
- **Black & white scrims** included to match any event style
- **Lightweight aluminum construction** with carry bag for easy transport

Why DJs Love It

This booth is more than a table—it's a **command center** for your performance. Quick setup, professional presentation, and integrated visuals mean you can **stand out, perform bigger, and engage your audience like never before**.

Set up fast. Stand out bigger. Perform like a pro.

FOH COMBO RACKS

Odyssey Professional FOH Audio Rack

The Odyssey Professional Front of House (FOH) Audio Rack is a portable road case designed for DJs, live sound engineers, and touring professionals who need a robust, organized, and easy-to-transport solution for essential audio gear.

Built for Wide Mixers and Essential Gear.

Unlike traditional 19" rackmount setups, this rack features a **wide and deep top surface** to accommodate **non-rack mountable mixing consoles** that exceed standard dimensions. The FOH Audio Rack is ideal for housing:

- Signal processors
- EQs and compressors
- Power amplifiers
- Networking devices

All gear can be pre-wired for **fast, hassle-free setup and breakdown**, saving time on every gig.

Flexible Configurations

The Odyssey FOH Rack is available in **single, dual, and triple bay configurations**, giving you the flexibility to customize your setup based on your gear and event needs.

Key Benefits

- Portable and durable—built for touring and road use
- Spacious top surface accommodates large, non-standard mixers
- Pre-wired options streamline setup and tear-down
- Multiple bay options allow for modular expansion as your system grows

The **Odyssey FOH Audio Rack** is the perfect solution for professionals who want a clean, organized, and reliable audio command center for live performances, club events, or touring setups.

TALL COVER FOH COMBO RACKS

TALL COVER Combo Rack Series

Set Up Faster. Roll Smarter. Protect Your Gear.

The TALL COVER Combo Rack Series is built for pros who want speed, protection, and convenience. The Tall Cover design lets you leave cables connected to your mixer—cutting setup time and keeping your rig show-ready. Just remove the cover and go. 2 different top section configuration, a deep flat surface for non-rack mount mixing console or an angled 13 space rack mount rails.

Road-tough construction, recessed hardware, and smart access to all lower gear make this rack a reliable choice for touring, live sound, and installs. W models roll smoothly on heavy-duty casters with brakes, while DLX models add lids that double as workstation tables for maximum versatility.

Highlights

- Tall Cover design keeps cables connected
- 13-space top slanted rack (or flat surface for non-rack mount)
- Rugged 3/8" plywood construction
- Recessed latches & spring-loaded handles
- Heavy-duty ball corners
- 4" casters on W models (2 with brakes)
- DLX lids convert to workstation tables

TRUSS COVER

Presentation is everything to your audience, so when you want to add that extra nice decor to your set up, use Odyssey's Scrim Werks™ truss covers.

These truss covers, made of stretchy fabric, fit over 12"x12" square truss and are available in lengths from 1ft - 10 ft. Slip it over a dull or scratched truss and transform it into a clean white and or black column, or illuminate it in glowing, majestic colors with an LED light.

Use them in conjunction with other Scrim Werks™ product to create a great background effect and enhance the structural ambiance of any outdoor or indoor banquet, weddings, and theatrical setting.
